

My name is Jared Vesser,

I enrolled in college in 2019 and was not fully committed to doing it the “right way”. My goals at Herzing University are to dedicate time and effort to my education and my future. I have already felt so welcomed and guided by Herzing University and all the staff and faculty. I feel that I have all the resources and support I need to achieve my goals, and excel in my career, post-graduation.

Thank you all so much for taking the time to help guide me through this process!

Jared Vesser.
